CHALLENGES FACED BY NON WEB3 EMPLOYEES

Time Drain

Lack of training results in loss of time as employees struggle with unfamiliar tasks and processes.

Capability Gap

Employees' lack of skills and knowledge results in low productivity.

Team Cohesion Loss

Knowledge gap divides team, hindering cohesion among experienced & inexperienced members.

Net Value Loss

Ineffective training can undermine human capital value.

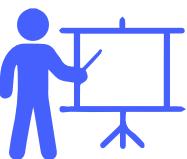

THE PRICE TAG OF NOT TRAINING YOUR TEAM

Factors	Value
Wage	\$75 / hour
Learning Timeframe	9 months
No. of Hours	180 / month
Efficiency Rate	50%
Potential Efficiency Loss	\$60,750

OUR BOOTCAMPS: IN-DEPTH, CUSTOMIZED, PRACTICAL AND EXPERT-LED

In-Depth Learning

Beyond basic online content, offering a deep dive into Web3 technologies.

Customized Curriculum

Tailored training that aligns perfectly with your company's objectives.

Top Web3 Creation

Developed by renowned industry leaders in the Web3 domain.

Case Study Rich

Courses formulated by focusing on various case studies

Ongoing Support

Includes follow-up sessions to ensure continuous learning and application.

Cost-Effective

High-quality training at an economical price.

PROGRAM DETAILS

Unlock the potential of blockchain with our immersive bootcamp at DoDAO. Dive deep into the world of NFTs, DeFi, Layer 2 solutions, and more, gaining essential knowledge and skills that will set you apart in this rapidly evolving industry.

Q&A Modules

LEARNING PATH

MODULE I

BLOCKCHAIN BOOTCAMP

INTRO TO BLOCKCHAIN 2 HOURS

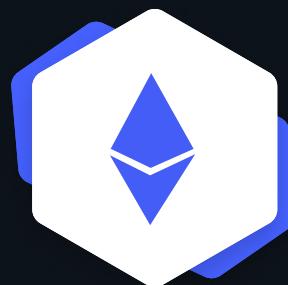

Module Overview

This module is an in-depth exploration of the foundational concepts, principles, and applications of blockchain technology. Employees will embark on a journey from the basics of blockchain to its advanced applications.

Case Studies

Bitcoin

Ethereum

Course Curriculum

- Bitcoin Whitepaper
- Ethereum
- How Transaction work
- Smart Contracts

NAVIGATING DEFI 2 HOURS

MODULE 1

Module Overview

This module is a comprehensive exploration of the revolutionary landscape of DeFi. It delves into the fundamental principles, protocols, and applications that form the backbone of the rapidly evolving DeFi ecosystem.

Case Studies

Uniswap

Compound

Aave

Balancer

Maker

& More

Course Curriculum

- Decentralized Exchange & Liquidity Pools
- Lending and Borrowing
- Perpetuals
- Others - Decentralized Insurance, Bonding Curves, etc.

INTRO TO NFTS (DIGITAL ARTS & MUSIC)

Module Overview

This module is a focused exploration of the rapidly growing world of Non-Fungible Tokens. Employees will gain insights into the fundamental concepts, applications, and implications of NFTs in various industries, from art and entertainment to gaming and beyond.

Case Studies

Nouns

Adidas

Nike

Bored Ape
Yacht Club

Crypto
Punks

& More

Course Curriculum

- Intro to NFTs
- Case studies of Art Projects
- Case studies of Sports NFT projects
- Case studies of Music & Gaming NFT projects

DIVING INTO L2S & CROSS-CHAINS 2 HOURS

Module Overview

This module provides a comprehensive exploration of Layer 2 scaling solutions and cross-chain interoperability, addressing critical challenges in scalability and connectivity within the blockchain ecosystem.

Case Studies

Arbitrum

Optimism

Polygon

Wormhole

Alexar

& More

Course Curriculum

- L1, L2 and L3s
- Bridges
- Cross Chain Communication
- Arbitrum and Optimism working
- Polygon zkEVM working
- Others - Celestia, Cosmos etc

EXPLORING GAMING PROJECTS 2 HOURS

Module Overview

This module is a dynamic exploration of the transformative impact of blockchain technology on the gaming landscape. Employees will delve into the unique opportunities presented by blockchain in the gaming industry, gaining practical insights and exposure to various blockchain gaming projects.

Case Studies

Sandbox

Alien
Worlds

Gala
Games

Illuvium

Immutable

& More

Course Curriculum

- Missing Gaps in Web2
- Need for Web3 Gaming
- Landscape of Web3 Gaming Industry
- Case studies of Alien Worlds, Sandbox, Gala Games etc.

BOOTCAMP OUTCOMES

DeFi

DeFi Proficiency

Employees will have a profound understanding of decentralized exchange mechanisms

NFT

Mastering NFT Projects

Employees will gain insights into various NFT projects and their impact on art, entertainment, and beyond.

Gaming Industry Expertise

Employees will be informed regarding various gaming projects and will be able to differentiate between Web2 & Web3.

Expertise in L2 & Dynamics

Employees will understand the mechanisms behind seamless cross-chain interactions & various L2 solutions.

Employees' Empowerment

Includes follow-up sessions to ensure Through our bootcamp, employees will gain the empowerment to navigate and contribute to decentralized systems within their workplace.

Increased Skillset

Employees will acquire a comprehensive skill set in blockchain technology.

NOTABLE ORGANIZATIONS WE HAVE WORKED WITH

Aave

Compound

Uniswap

Optimism

Arbitrum
